From the Scientific Coordinator

A warm welcome to all of you, hoping that you had a lovely summer.

During the past months, all partners involved in the analysis of pilot work results have been working very hard on the finalisation of their respective deliverables and I would like to thank and congratulate them all for their efforts. Work has also started on the last scientific workpackage of the project, i.e. WP13: Adaptation of European policy recommendations on nutrition and physical activity to take into account socio-economic inequalities.

This Autumn will be very important as we will be having in our last Plenary and Scientific meetings. This will also be the opportunity to obtain feedback from the five members of our Advisory Board. The meeting will take place in Rome on 19-20 November and we hope that you will all be able to join us.

Best wishes,

Joceline Pomerleau

14 partners from 10 countries

Project coordination: London School of Hygiene & Tropical Medicine

Project partners: Bosnia and Herzegovina, Czech Republic, Denmark, France, Italy, Latvia, Slovenia, Switzerland, Turkey, United Kingdom

Duration: 04/2007–03/2010

UPDATE ON PROGRESS

Update on WP6 & WP8–11 (*Sub-regional piloting of the policy analysis tool – led by MU, PHA, HUBDB, IPH, and INSERM*): Deliverables D6, D9, D10 and D11 have now been submitted to the European Commission and D8 is being finalised. These deliverables provide details of the results of each pilot test.

Update on WP12 (*Comparative analysis from regional consultations – led by SUHRS*): Deliverable D12 is currently being finalised. It will provide a comparative analysis of the results of the five pilot tests and outputs from the 2nd Plenary Meeting which took place in Istanbul last May.

Update on WP13 (*Adaptation of European policy recommendations on nutrition and physical activity to take into account socio-economic inequalities*): WP13 is currently underway and will be discussed at the Plenary Meeting in Rome in November.

PREPARATION OF THE FINAL EURO-PREVOB MEETING

The final EURO-PREVOB meeting will be hosted by National Research Institute on Food and Nutrition (INRAN) in Rome on 19-20 November 2009. It will consist of the joint 3rd Plenary Meeting, 3rd Advisory Board Meeting, and 6th Scientific Committee Meeting. It will be the opportunity for us to meet one last time with our Advisory Board as well as experts and stakeholders, some of them having followed the project since its inception.

Practical information, including hotel arrangements and preliminary programme, has already been sent to meeting participants. Background documents will be available approximately two weeks prior to the meeting. If you require any further assistance, please contact Marina Adrianopoli (adrianopoli@inran.it) or Pamela Harling (Pamela.Harling@lshtm.ac.uk).

If you plan on doing some sightseeing while you are in Rome, you can find abundant information on the internet, for example on the following websites: <http://www.italiantourism.com/discov25.html>; <http://en.wikipedia.org/wiki/Rome>; <http://www.lonelyplanet.com/italy/rome>

PERSONNEL ANNOUNCEMENTS

Marc Suhrcke has now joined the University of East Anglia (UEA), Norwich, UK, as **Professor in Public Health Economics**. UEA has therefore become a new Consortium member (subject to EC approval) and is leading Workpackage 13.

Giovanna Ceroni (Administrative Coordinator) has left the project to work for the Cochrane Collaboration. We would like to thank her sincerely for her fantastic contribution to the project and wish her the best of luck in her new position!

We have great pleasure in welcoming our new Administrative Coordinator, Pamela Harling, a science graduate with a wide range of experience in managing European Commission funded science projects.
